

R24. Regulations for Partnerships

The CITY ULE may offer programmes of studies jointly or in collaboration with other Universities abroad (approved partners) which will lead to the award of a joint or a dual degree from both institutions.

This is subject to the approved partners entering into a tripartite direct agreement with the University of York and CITY ULE to regulate the terms of such collaboration. The collaboration shall be on terms that are similar to and no less onerous than the terms of the Educational Cooperation Agreement between the University of York and the CITY ULE. New partners will be proposed and agreed in line with processes approved by the Joint Strategy Group.

The CITY ULE may offer programmes of studies in other countries without the contribution of an approved partner subject to the approval of the University and agreed in line with processes approved by the Joint Strategy Group.
