Applicants with additional support needs

University of York Europe Campus has an explicit policy of providing support for students with disabilities or long term health conditions and believes that these students should have access to the full range of academic, cultural and social activities the Europe Campus offers. Disability awareness training is offered to all staff. Therefore, the College will take all reasonable steps to meet both the general need for access and the specific needs of individuals with additional support needs.

Students with disabilities or long term health conditions, as all other students, are accepted by York Europe Campus on the basis of academic attainment and potential to benefit from the programme to which they have applied.

Applicants are encouraged to declare their disability when they apply but this is not taken into account by the staff assessing their application. If an offer is progressed information relating to a candidate's disability or long term health condition will subsequently be shared with assessors to allow them to engage in further discussion with the applicant and identify appropriate adjustments where applicable. Applicants who choose not to disclose their disability or long term health condition at the point of application will be provided with other opportunities to provide such information later in the process. Any disability disclosure will be dealt with confidentiality and sensitively.

Certain disabilities may preclude entry to certain programmes. Where the adjustments needed to provide the required support are not considered reasonable, Europe Campus will undertake to support the applicant in considering an alternative programme where appropriate.

If you have a disability, additional needs (including dyslexia or another specific learning difficulty) or a medical condition, please select the most appropriate option from the list. If you do not have a disability, additional needs, or a medical condition, please select 'No disability'.
